Letter of Recommendation

To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for Menahi Shayan. I noticed him very early on in his academic pursuit and was genuinely impressed by his innate leadership skills, right from his freshmen year.

Shayan played a key role in the Core Team of our intra-college techno-cultural fest in his freshmen and sophomore years, leading him to be the only freshman and sophomore to have ever been in the Core Team, and went on to serve as the Head of The Core Team for both our intra-college and inter-college techno-cultural fests in his junior and senior years. He also served as the student in-charge of the Cultural Committee at AMCEC in the year 2019. Aside from extra-curriculars, he has also hosted multiple student induction programs for his juniors, including one which, despite the pandemic, stood out from every other induction program conducted before and has set a new standard moving forward. Shayan has demonstrated excellent communication skills, strong leadership, diligence, compassion, and admirable helpfulness.

His technical innovations have been the bearer of many national level awards. He is not just an innovator, but also a visionary. A lot of my early interactions with him in his freshman year revolved around his vision of automation and ground-breaking technological advancements in the way institutes are administered, which at the time sounded almost utopian, yet was perfectly achievable for him. Shayan has managed to channel his leadership, innovative abilities and dedication into co-founding his very own technology startup that is reaching new heights. His entrepreneurial route has inspired the other students and stands as the North Star of Entrepreneurship at AMCEC.

Acknowledging his exceptional achievements over the last few years, I would like to strongly reiterate my support for the candidature of Menahi Shayan for admission to your esteemed University.
